Electronic board *Panaboard* Line-up

Good-to Taking

Normal meetings

After

Before

Saves Data in Colour

Colour **Panaboard**
UB-2815C/2315C

Colour Scanning Capability

Easy-to-Read Colour Scanning

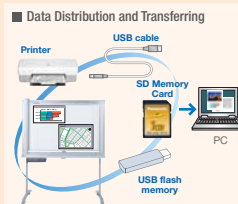

All information attached to the board and notes that were added with colour pens are instantly scanned in colour. The colours make things easier to understand.

Distribution Matched to Your Needs

Easy, Fast, Accurate Data Sharing

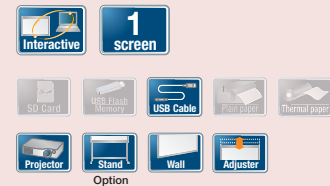

Save data directly to an SD Memory Card or USB flash memory in JPEG, TIFF or PDF format for easy sharing. You can also connect the board to a PC with a USB cable for quick data uploading.

Colour: PDF or JPEG, Black & White: PDF or TIFF

Board-Controlled PC Operation

elite Panaboard
UB-T780

Projector Mode

Effective, Single-Person Presentations

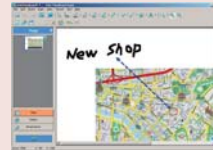

The PC can be operated right from the board using the electronic pen. The ability to control the PC software from the board helps to make meetings go more smoothly.

elite Panaboard book (included software)

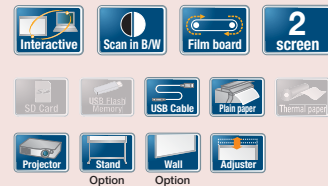

Create Materials with Panasonic Tools

The "elite Panaboard book" consists of a set of tools that were developed by Panasonic. You can use them to create and save presentation materials.

UB-T780 only

Interactive Panaboard
UB-8325

Whiteboard Mode

Simple Information Sharing

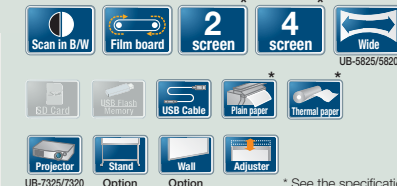

Data written onto the board can be uploaded to a PC, then displayed on a large screen with a projector. This makes it ideal for giving lectures in large halls.

UB-8325 only

For High-Level Conference Rooms

* See the specifications for applicable model numbers.

Sleek, Metallic Design

The metallic frame has a deluxe appearance that enhances its surroundings wherever it is placed. Select the size and screen number that suits your needs. You can also connect the board to a PC with a USB cable for uploading data.

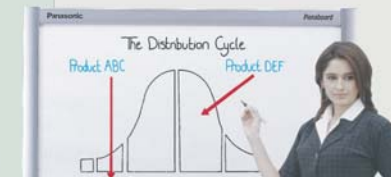

Slim Standard Type

Slim Design **Panaboard**
UB-5815/5315/5310

Slim Design

This space-saving design can be used almost anywhere and offers all the necessary functions. Up to nine consecutive copies can be made. The board can also be connected to a PC with a USB cable for uploading data.

Other Features

Wall Mounting, Height Adjustment, Casters Adjust and Move to Match the Location

In addition to allowing height adjustment in 2 to 4 steps*, the board can be wall-mounted or fitted with casters for easy, versatile use by anyone.

*2-step height adjustment: UB-2315C/2815C, UB-8325, UB-5325/5825/7325/5320/5820/7320
3-step height adjustment: UB-5315/5815/5310
4-step height adjustment: UB-T780

2-in-1 Print Easily Compile Information

The data on two boards can be compiled into a single board print. This makes it easier to organise information and also reduces paper costs.

Multi Copy Works Like a Copy Machine

Up to nine copies can be made right from the board, so they can be distributed to meeting participants immediately without having to use a separate copy machine.

PC Interface Carry Data Anywhere

Simply connect the board to a PC with a USB cable for quick and easy uploading of all board information. This is ideal for editing, managing, and sharing data the easy way.
